School District Suggested Records Retention Schedule

This schedule lists records commonly created by school districts, educational service centers, and career technical schools. The retention periods specified herein are either required by statute or have been determined by best practice. Local Records Commissions may edit retention periods based on the administrative, fiscal, legal, and historical value of the records.

The local school district, education service center, or career technical school should also notate the media type of the records on the schedule in column 4. The records can be maintained on separate formats (i.e. paper and electronic) for different amounts of time.

Permanent records existing solely in electronic format may become inaccessible through media decay and/or hardware/software obsolescence. The Ohio History Connection recommends that digital records with greater than a 10 year retention period also be maintained in either paper or microfilm formats.

Records may not be disposed of until all audits are released and audit discrepancies have been settled. Where a lawsuit or agency proceeding is pending, a legal hold on relevant records is required. Records shall be retained until the legal hold has been removed.

ELECTRONIC MAIL (e-mail) is a format on which records are sent, received and/or drafted using electronic mailing systems. E-mail is NOT a record series. Instead, each individual e- mail should be evaluated according to its content and retained in accordance with the record series adopted within this schedule that the content most closely fits.

Before this records retention schedule is considered in effect for a particular school district it must first be signed by a local responsible official and local records commission chair, the State Archives, and the State Auditor's Office.
