ext. 1112

LEANOhio Boot Camp is for local leaders who work in Ohio cities, townships, counties, school districts, public universities, and other governmental agencies and organizations. The five-day session is entirely practical, with extensive hands-on instruction on Lean methods and tools.

The training is filled with public-sector examples and exercises. Included is an in-depth simulation involving a prototypical agency, so participants build their toolkits by way of a real-world situation. They will be able to use their new knowledge and skills immediately -- to make government simpler, faster, better, and less costly.

Scholarships are available through the Local Government Efficiency Program(www.lean.ohio.gov) to cover the **\$2,000** registration fee.

When LEANOhio Boot Camp participants complete their week of training, they are newly equipped to:

- Scope an improvement project
- Make invisible processes visible so they can be dramatically simplified
- Be an effective improvement team member
- Identify and remove waste
- Eliminate batching and other enemies of speed
- Decrease the complexity of processes and eliminate unneeded steps
- Develop requirements for an efficient process *before* implementing IT solutions
- Create a dashboard of visual data to easily measure progress

Training Topics Include:

- | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> • SIPOC • Project selection and scoping • Process mapping • Identify Waste • Data collection and display • Standard work • Batching • 5S • Poka-Yoke • Improvement team roles and process | <ul style="list-style-type: none"> • Visual management • Change management • Understanding your customers • Additional tools |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
- Participants Also Receive:**
- LeanOhio Boot Camp manual
 - Lean Tool Kit
 - Certificate of Participation
 - Access to the LeanOhio Network

LEANOhio Boot Camp was designed by a public-sector team of Lean Six Sigma Black Belts with years of experience in government. Team members have planned, led, and facilitated hundreds of Lean events, including major kaizen events that have saved millions of dollars.

Registration: www.esclc.org / Events Calendar

Deadline: Jan. 9, 2015
